

WE GIVE YOU PEACE OF

Mind

Care Patrol knows that finding assisted living or other care for your loved one can be a stressful and difficult time in your life. The last thing you should have to worry about is if the assisted living home or community you chose is a safe and reliable place.

After many hours of research, we have assigned a letter grade to each and every assisted living home and assisted living community based on their latest Department of Health Services survey.

Rather than giving you the names and contact numbers of every provider in the area, we only recommend those that have scored the highest and have received written references from current or past residents' families.

Every provider that we recommend has scored above and beyond the average provider.

That's the CarePatrol promise, and that's what we deliver everyday to families free of charge.

When Is It Urgent To Move Into Assisted Living ?

These are signs that your loved one may need an immediate change to assisted living:

- ⊙ Wandering from home despite changes the caregiver has made to prevent wandering.
- ⊙ Frequent medication mistakes.
- ⊙ Lack of adequate food and/or fluid.
- ⊙ An unsafe/unclean home environment (not taking garbage out, dirty dishes).
- ⊙ Unsafe behavior (leaving stove on, exterior doors open at night).
- ⊙ Physical abuse of spouse or other in-home caregiver.
- ⊙ Need for night-time supervision that cannot be met by in-home caregiver.
- ⊙ Increased Falls

Their Families

How Are We Different ?

CarePatrol uses a propriety algorithm that assesses the number of citations for each care provider and ranks them against each other.

We then assign the highest scores an "A" and the lowest scores an "F". This unbiased system is unique in our industry and is only used by CarePatrol.

Assessment

Our Senior Care Consultants will complete a telephonic or in-person assessment. We will then "Match" your loved one's needs with homes, communities or in-home care services that have scored the highest in their area.

Tour

After we have completed our assessment, we recommend only the highest scoring options that meet your geographical, financial and care needs. We then can personally escort you to the assisted living options to be your advocate and to negotiate the best price for you.

Support

We will follow up with you and your loved one to make sure everything is going smoothly. We periodically reassess their needs as their care level changes. CarePatrol makes looking for assisted living and other services extremely easy, while saving you time, money and frustration.
